Policy for the green campus and Plastic free campus

Vision :

- ❖ The campus should aim to achieve zero waste by reducing its waste generation through waste reduction and recycling initiatives, and by implementing composting programs.
- ❖ The campus should promote sustainable transportation options such as biking, walking, and public transportation, and provide infrastructure such as bike lanes, bike racks, and shower facilities for cyclists.
- ❖ The campus should promote environmental education and sustainability literacy among students, faculty, and staff, and offer courses and programs on sustainability and environmental issues.

Objectives :

- ❖ Reduce energy consumption by a certain percentage through the use of energy-efficient lighting, appliances, and through the implementation of renewable energy sources.
- ❖ Reduce water consumption by a certain percentage (e.g. 30%) through the use of low-flow toilets and faucets, and through the implementation of rainwater harvesting systems.
- ❖ By prioritizing objectives such as energy and water conservation, waste management, sustainable transportation, green purchasing, education and outreach, and a sustainability committee, colleges can work towards creating a more sustainable future and inspiring the next generation of environmental leaders.

Roles and Responsibilities :

- ❖ The administration is responsible for setting policies and guidelines that promote sustainability and environmental on campus.
- ❖ Faculty members can play a crucial role in promoting environmental literacy and sustainability education among students.
- ❖ Staff members can contribute to sustainability efforts in a variety of ways, such as reducing energy and water consumption, implementing waste reduction and recycling programs, and promoting sustainable transportation options.
- ❖ Students can play an active role in promoting sustainability on campus by volunteering for sustainability initiatives, and advocating for sustainability policies and practices.
