

2.6.2 Attainment of Programme outcomes and course outcomes are evaluated by the institution .

The academic result and placement data indicate the program and course outcomes. The results are discussed with the heads of departments by IQAC wherein student success rate is calculated which is treated as program outcome. In-detail interpretation of the result helps to further planning for the improvement so as to increase the program/ course outcome rate. This is also helpful for improvising the teaching-learning processes. Besides this, the students are placed in various jobs for which they are offered guidance by the teachers of the college. With the help of the Alumni Association, the data of placed students in various jobs is obtained and it helps for the evaluation of program and course outcome. The college has following mechanism to analyze the program and course outcomes.

- 1) Subject-wise analysis of the result-Internal assessment is conducted and interpreted. This data is helpful for the understanding of the areas of academic weakness of students.
- 2) After analysis and interpretation, counseling the students for improvement is taken place. This mechanism helps the students and makes the teaching learning process student-centric. Extra lectures are arranged for weak and advanced learners.
